

PAROS

Located in the heart of the Cyclades, Paros is an island of great beauty and warm local character, a perfect destination for anyone. A favorite vacation spot of the Greeks for decades, Paros is currently being re-discovered by the world, for its incredible beaches, its striking white villages – Parian-marble white, one could say – and its diverse entertainment options.

Paros is all about purity and simplicity. The sun shines warm upon the vineyards, the Aegean winds cleanse the soul, basil and spearmint bloom on balcony flower pots... the traditional architecture of whitewashed cubic houses is a study in minimalism itself!

Paroikia is the capital and port of the island, a busy, happy place where you can wander around the narrow streets, go shopping, sample some great local cuisine and admire the wonderful houses and mansions of Cycladic and neoclassical architecture.
